

Wall Logos & Letters

Product Code: WALLLOGLETR

Price: \$0.45

Description

From in-store displays, to reception areas, to exhibits, your interior signage project will stand out with these elegant laminate display letters. This product is sold by the square inch.

How to calculate size of your final wall logo.

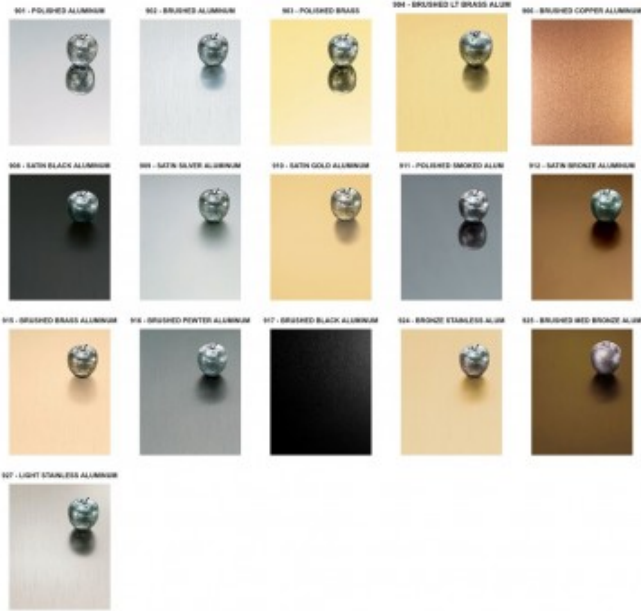

1. Measure the total width in inches of the wall logo or area you want to cover.
2. Measure the total height in inches of the wall logo or area you want to cover.
3. Make sure to leave plenty of space on the sides.
4. Multiply both H" x W" and enter total on the quantity box. (Example 60" x 26" = 1560)

1560 is the number of square inches you will need to purchase.

Not sure you got this right, don't worry. Send us a photo taken of the area where the logo will be displayed. Click on Add to Quote and submit your request.
